Mind What You Download | Rap

The Mind What You Download Rap

Mind what you download

It's a slippery, scary road

If you go on the wrong site

A virus might come back to bite

Though the internet's a fun place

It does have some harmful ways

Everywhere Trojans are hidin'

Beware lest you find them

Though that song might sound really cool

Copyright is a rule

If you don't have permission

Make the right decision

Mind what you download

It's a slippery, scary road

If you go on the wrong site

A virus might come back to bite

2x
