Digital Citizenship + Digital Literacy

CHANGES TRACKER

We've enriched our Digital Citizenship & Digital Literacy courses with new activities to keep your students engaged and up-to-date on the latest topics. We've added more mouse practice to allow students to practice skills like drag and drop, scrolling, and highlighting. Students can now express themselves creatively, sharpen their memories, and learn about new AI technologies. We're continuing to develop new relevant content daily, so please refer to the table below for information on new updates and additions to the course.
